

SHAHINA SAREEN K T

Aspiring Software Engineer Intern

+917594006269 | Place: Palakkad, Kerala, India | Email: shahina@shahinasareen.tech
Portfolio: www.shahinasareen.tech | LinkedIn.com/shahinakt
GitHub.com/shahinakt | Medium.com/shahinasareen

SUMMARY

Computer Science Undergraduate with strong hands-on skills in full-stack development, AI/ML, and cybersecurity. Skilled in Python, JavaScript, and cloud-native DevOps. Adept at system design, agile development, and building secure, scalable applications. Known for strong communication and adaptability. Proficient in Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), N-Tier Architecture, Debugging, Test-Driven Development (TDD), and Software Development Life Cycle (SDLC). Seeking a Software Engineer Internship to apply technical expertise in real-world development environments.

EDUCATION

B.Sc. Computer Science

University of Calicut

2023 – 2026 Calicut, Kerala, India

CERTIFICATIONS

- **Full-Stack JavaScript Development - LinkedIn Learning**
- **Advanced Python AI Projects - LinkedIn Learning**
- **Advanced Cyber Threat Intelligence - LinkedIn Learning**
- **Generative AI Career Essentials - Microsoft & LinkedIn Learning**
- **Cloud Architecture: Advanced Concepts - LinkedIn Learning**

PROJECTS & EXPERIENCE

Threat Intelligence With Chatbot Integration

Tech Stack: React.js, FastAPI, MongoDB, Blockchain

- Detects phishing and scam links in real time using AI with user reporting and global threat heatmaps.
- Features chatbot assistance for incident reporting and blockchain-based data verification.

AI-Based CCTV Multi-Detection System

Tech Stack: YOLOv8, OpenCV, React, Firebase, FastAPI, PostgreSQL

- Detects violence, theft, and accidents from CCTV feeds and triggers instant alert notifications.
- Integrated with a real-time dashboard for live monitoring and visual analysis.

Other Projects:

- **Early Disease Predictor with Chatbot** — FastAPI, Scikit-learn, React
- **AI Resume ATS Checker** — FastAPI, Streamlit, spaCy, OpenAI
- **ML Plant Image Classifier** — React, TensorFlow.js, MobileNet

KEY ACHIEVEMENTS

Self-Taught Programmer

Built advanced AI & Full- Stack Development skills through independent learning.

TechFest Debugging Winner

Won 1st Place in an inter-college Debugging Competition.

LeetCode Problem Solver

Solve 50+ coding challenges and strengthening DSA and algorithmic problem-solving

Medium Writer

Authored 60+ articles with over 10,000+ claps, engaging readers on AI and Tech Innovation.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, C, SQL

Frameworks & Libraries: React.js, Node.js, Next.js, Express.js, Django, FastAPI, Tailwind CSS

AI/ML & Data Tools: scikit-learn, TensorFlow, OpenCV, Pandas, spaCy, Transformers, Prompt Engineering, CLIP

Cybersecurity: MITRE ATT&CK, OSINT, Threat intelligence, Secure Coding, Blockchain Security

Backend & APIs: RESTFUL APIs, Kafka, WebSockets, GraphQL

Databases: PostgreSQL, MongoDB, MySQL

Cloud & DevOps: Git, GitHub, CI/CD, Docker, Kubernetes, Vercel, AWS

Tools: VS Code, Android Studio, Postman, Jupyter Notebook, Linux, ChatGPT, Claude AI, Gemini, GitHub Copilot

STRENGTHS

- ✓ Fast Learner & Adaptable
- ✓ Problem-Solving
- ✓ Time Management
- ✓ AI Tools & Prompt Engineering

LANGUAGES

- English – Proficient
- Hindi & Arabic – Intermediate
- Malayalam – Native
